The CEL is much more of a security in the US than before. This burn requires us to be much more cautious and responsible on everything we do with the token. From insider trading to investment advice. We always been careful, but now we need to be even more, and yes, even internally.

Roni Cohen pavon Celsius

2021-10-01 07:27:42.000 PM

It also changes the way we do market making and has other impacts. We will work on a clear policy, but until then, if you're not sure, please ask

Rodney Sunada-Wong

I will distribute the transcript so everyone can review what was said during the AMA

is Adeel the one to ask for the tokens to burn? I'm sending an email... please tell them to not jerk me around.

Roni Cohen pavon Celsius

2021-10-01 07:32:28.000 PM

Not sure what does it mean. Why aren't you doing it?

Roni Cohen pavon Celsius

2021-10-01 07:32:39.000 PM

Didn't you do the test yesterday?

Nuke Goldstein

2021-10-01 07:33:34.000 PM

to burn tokens they need to be sent to the master wallet, there I can execute the burn.

Roni Cohen pavon Celsius

2021-10-01 07:33:44.000 PM

No one discussed this with Adeel.

Roni Cohen pavon Celsius

- can you reach out to him?

Nuke Goldstein

2021-10-01 07:34:26.000 PM

Connor asked me to write Adeel and him in an email. I sent an email. Just need then to understand this is real and urgent.

I'm confused by this discussion. Are you saying that on the AMA that Alex communicated to the community that we burnt 53,682 CEL (visually he had a button that he pushed) but that we did not actually burn the CEL?

[REDACTED] Roni Cohen pavon Celsius 2021-10-01 07:49:26.000 PM

Correct. We will reveal the transaction so all will see it. Next week it will be done in real time. Not sure why it was not done today but the risk is minimal as long as we do this fast and show the real transaction

[REDACTED] Nuke Goldstein 2021-10-01 07:58:44.000 PM

52,682 tokens. doing now. the moment I see the tokens.

I have to hit the road. Also, don't want anyone to know I do it. So from marketing plz.

[REDACTED] Rodney Sunada-Wong 2021-10-01 08:05:56.000 PM

Alex is asking for the burning process to be clarified. Who owns this process?

[REDACTED] Roni Cohen pavon Celsius 2021-10-01 08:06:26.000 PM

The burning process

[REDACTED] Roni Cohen pavon Celsius 2021-10-01 08:07:14.000 PM

We will set a process next week

[REDACTED] Roni Cohen pavon Celsius 2021-10-01 08:07:20.000 PM

I'll take it

[REDACTED] Rodney Sunada-Wong 2021-10-01 08:10:30.000 PM

Ok. Thank you

[REDACTED] Roni Cohen pavon Celsius 2021-10-01 08:10:53.000 PM

We'll also publish this on the website

[REDACTED] Nuke Goldstein 2021-10-01 08:11:50.000 PM

The only thing I need is to send the tokens to the wallet address that I specified.

[REDACTED] Roni Cohen pavon Celsius 2021-10-01 08:12:16.000 PM

I'll circulate the internal and external process before formalizing it
